### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

1. This communication is an Examiner's reasons for allowance in response to application filed on October 29, 2001, assigned serial 10/074,903 and titled "Method and System for Querying in Moving Object Database".

2. In response to the amendment filed on August 26, 2004, original claims 1-49 have been canceled. The new claims 50-101 have been added. Therefore, the previous restriction has been withdrawn.

3. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. After carefully reviewing the application in light of the prior art of record, the amended claims and the search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

b. Although the prior art disclose several claimed limitations, none of the references teaches a method for querying a trajectory of a moving object which includes at least the steps of obtaining a sequence of expected locations for the moving object including a starting point, destination point and intermediate points, computing a temporal-spatial path along those points, creating a trajectory for the moving object, wherein the trajectory defines permissible spatial and temporal uncertainties in actual locations of the moving object relative to expected locations of the moving object along the temporal-partial path, and performing a querying on the trajectory in order to determine location information about the moving object (claims 50, 62 and 88).

Art Unit: 3661

c. Claims 50-101 are allowable over the prior art of record (now renumbered as 1-52).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (703) 305-9755. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM
